## PROFESSIONAL SUMMARY

Enterprise AI, Cloud & DevSecOps Architect with 10+ years designing and operating large-scale infrastructure platforms for banks, government agencies, and enterprises. Takes AI and cloud platforms from pilot to production with security and observability built in: production GenAI on GPU-accelerated Kubernetes, **100% GitOps adoption**, and DevSecOps pipelines that cut delivery cycles by **50%**. Microsoft Certified Azure Solutions Architect Expert and DevOps Engineer Expert, with a PhD in Computing & Information Technologies.

**Open to permanent roles and B2B contracts (US, Spanish, and Moroccan entities). Remote worldwide, with on-site travel when a project needs it.**

## CORE SKILLS

**AI & GenAI:** NVIDIA Operator, Amazon Bedrock, Microsoft Azure AI Foundry, autonomous AI agents, GPU-accelerated containers

**Cloud:** AWS (EKS, EC2, S3), Microsoft Azure (AKS, App Service, Application Gateway, Entra ID), hybrid cloud

**Kubernetes & Platforms:** Kubernetes, Red Hat OpenShift, OpenStack, Nutanix Kubernetes Platform (NKP)

**DevSecOps & GitOps:** ArgoCD, GitOps, Jenkins, GitLab CI/CD, Terraform, Ansible, Puppet, Docker, Harbor, Nexus, Trivy, Dependency-Track

**Observability:** Grafana (LGTM stack), ELK Stack, Dynatrace, Prometheus, Nagios, Centreon

**Security:** SIEM, EDR, DLP, enterprise PKI, vulnerability management, penetration testing

**Systems & Virtualization:** RHEL, IBM AIX, Windows Server, VMware vSphere, Nutanix AHV

**Scripting & Data:** Python, Bash, SQL / PostgreSQL

## PROFESSIONAL EXPERIENCE

### AI & Infrastructure Expert, Saham Bank — Jan 2026 – Present

*Casablanca, Morocco*

- Engineered production GenAI execution environments on containerized, GPU-accelerated infrastructure with the NVIDIA Operator; orchestrated autonomous AI agents and enterprise workflows on Microsoft AI Foundry and Amazon Bedrock.
- Drove **100% GitOps adoption** across all Kubernetes projects with ArgoCD, fully automating build, ship, and run and making Git the single source of truth for cluster state.
- Built secure, high-throughput CI/CD pipelines with Jenkins and GitLab, integrating software composition analysis and registry isolation (Nexus, Harbor, Trivy, Dependency-Track, Dependency-Check).
- Architected unified monitoring and log fabrics with Nagios, Grafana, ELK, and Dynatrace for proactive alerting, performance profiling, and cluster stability.
- Engineered hybrid topologies across Azure (App Service, AKS, Application Gateway, Entra ID) and AWS (EKS, S3, EC2); managed Nutanix, VMware, RHEL, and IBM AIX estates and Nutanix Kubernetes Platform.

### System & Security Expert, Crédit du Maroc — Apr 2021 – Dec 2025

*Casablanca, Morocco*

- Automated **80%** of deployment pipelines with Ansible, Docker, and Kubernetes, cutting software delivery cycles by **50%** while embedding security gates in the lifecycle.
- Led defensive security programs (EDR, DLP, SIEM, enterprise PKI); ran vulnerability management and penetration testing that cut identified threat parameters by **30%**.
- Optimized multi-platform environments (Windows, Linux, AIX) and virtualization (VMware, Nutanix); reduced operational downtime through proactive monitoring with Nagios, Centreon, and Prometheus.

### IT Solution Expert, Power Maroc
**Jun 2019 – Apr 2021**

*Casablanca / Rabat, Morocco*

- Served as principal architect for premium corporate and government accounts, including Attijari, CIH, BCP, DGI, TGR, DMN, Royal Air Maroc, WafaSalaf, and JESA.
- Delivered implementations on IBM AIX, Power Systems, IBM Storage, mainframe, RHEL, and hybrid OpenShift/OpenStack.
- Led large-scale migrations using Red Hat Satellite for centralized fleet configuration management, improving scalability and configuration velocity.

### IT Engineer, Ymagis Group
**Feb 2018 – May 2019**

*Casablanca, Morocco*

- Maintained high availability for **4,500 production servers across 3 continents** in a high-density hybrid cloud environment.
- Built modular provisioning frameworks with Puppet and Ansible, plus Python and Bash automation utilities.

### Junior IT Consultant, Training Consulting Services (TCS)
**Mar 2016 – Jan 2018**

*Casablanca, Morocco*

- Delivered virtualization designs (vSphere ESXi, vCenter, vSAN, Site Recovery Manager, Fault Tolerance) for clients including SNTL, Jacobs, SOLIBRA, NewRest, and Atlas Peintures.
- Managed migrations to Microsoft Exchange 2013, Office 365, and multi-tier Windows Server clusters.

## EDUCATION

**Doctor of Philosophy (PhD), Computing & Information Technologies and Engineering**, Madison International Institute & Business School, USA, 2025. Research on multi-cloud and hybrid-cloud architectures, disaster recovery, and near-zero-downtime systems.

**Professional Master's Degree, System Engineering, Networking & Security**, Faculty of Sciences and Technologies (FST), Settat, Morocco, 2018.

**University Degree in Technology (DUT), Computer Science**, ENSA, Berrechid, Morocco, 2016.

## CERTIFICATIONS

Microsoft Certified: Azure Solutions Architect Expert

Microsoft Certified: DevOps Engineer Expert

LPIC-3: Certified Linux Enterprise Professional (Mixed Environment), Linux Professional Institute

Red Hat Delivery Specialist: Cloud Management

IBM Cloud Private Infrastructure and Architecture

IBM Certified Solution Advisor: DevOps V2

VMware Certified Advanced Professional (DCV Design)
