

OUTMANI MAHFOUD

Infrastructure Architect | Cloud & System Design Specialist

Morocco | Full Remote | +33 6 XXXXXXXX | mahfoud@email.com

PROFESSIONAL SUMMARY

Infrastructure Architect with 10+ years designing and implementing large-scale, resilient systems. Specialized in hybrid cloud architecture, AI infrastructure design, and complex system modernization. Led transformations reducing operational overhead by 70%+ while improving reliability and scalability across Fortune 500 organizations.

STRATEGIC ACHIEVEMENTS

Hybrid AI Infrastructure Design (2025-2026): Architected end-to-end AI infrastructure for Saham Bank spanning on-premises Nutanix, Azure cloud, and NVIDIA GPU clusters. Designed multi-layer observability, security, and compliance frameworks. System serves 2M+ users with 99.95% availability.

Infrastructure Modernization Blueprint (2022-2023): Designed enterprise-wide infrastructure transformation reducing provisioning time by 97% (3 days→10 min), cutting operational costs by 40%, and improving deployment reliability to 99.8%.

Multi-Cloud Strategy Design: Architected multi-cloud strategy balancing Azure, AWS, and on-premises for cost optimization and workload placement. Reduced infrastructure costs by 35% while improving performance.

ARCHITECTURAL EXPERTISE

System Design: Hybrid cloud architecture, microservices design, distributed systems, high-availability systems, disaster recovery, capacity planning

Cloud Architecture: Azure (AKS, Foundry, App Service), AWS (EKS, EC2, ALB), multi-cloud integration, cloud cost optimization

Container & Orchestration: Kubernetes architecture, NVIDIA Operator design, storage architecture, networking design

Observability & Resilience: Observability stack design (ELK, Prometheus, Grafana, Dynatrace), SLO/SLI frameworks, incident response design, chaos engineering

Security & Compliance: Zero-trust architecture, PKI design, EDR integration, compliance frameworks (ISO 27001, SOC2)

PROFESSIONAL EXPERIENCE

AI & Infrastructure Expert | Saham Bank, Morocco | 2025-Present

Designed hybrid AI infrastructure architecture; led multi-cloud integration strategy; architected observability and security frameworks

Senior Infrastructure Architect | Financial Services | 2022-2024

Designed Kubernetes migration strategy; architected multi-cloud infrastructure; led infrastructure modernization program

Infrastructure Architect | Government Agency | 2019-2022

Designed enterprise infrastructure; led digital transformation initiatives; architected security and compliance solutions

CERTIFICATIONS & EDUCATION

PhD in Computer Science | Azure Solutions Architect | Red Hat Certified Architect | AWS Solutions Architect
