

OUTMANI MAHFOUD

Senior Site Reliability Engineer (SRE) | Reliability & Observability Specialist

Morocco | Full Remote | +33 6 XXXXXXXXX | mahfoud@email.com

PROFESSIONAL SUMMARY

Senior SRE with 10+ years infrastructure expertise. Specialized in building resilient, observable, and automated systems at scale. Proven track record reducing MTTR by 50%+ and automating operational toil. Expert in Kubernetes, GitOps, observability stacks, and incident response.

KEY ACHIEVEMENTS

AI Infrastructure Reliability (2025-2026): Architected and deployed hybrid AI infrastructure for Saham Bank serving 2M+ users. Implemented NVIDIA Operator on Kubernetes achieving 99.95% uptime. Built comprehensive observability with Elasticsearch, Grafana, and Dynatrace enabling sub-minute incident detection.

VM Provisioning Automation (2022-2023): Reduced infrastructure provisioning time from 3 days to 10 minutes via Ansible automation on Nutanix. Standardized security, compliance, and application deployment, reducing human error by 95%.

Production Incident Response: Designed and implemented incident response playbooks, reducing MTTR by 50%. Led on-call rotations for mission-critical systems.

TECHNICAL EXPERTISE

Reliability & Observability: Kubernetes, Prometheus, Grafana, ELK Stack, Dynatrace, SIEM integration, alerting strategies, SLO/SLI definition

Automation & Infrastructure: Terraform, Ansible, GitOps (ArgoCD), CI/CD pipelines, IaC best practices

Cloud Platforms: Azure (AKS, App Service, Foundry), AWS, Nutanix

Linux & Security: Advanced Linux administration, PKI, EDR, vulnerability management, compliance (ISO 27001, SOC2)

PROFESSIONAL EXPERIENCE

AI & Infrastructure Expert | Saham Bank, Morocco | 2025-Present

Led infrastructure modernization for AI workloads; deployed NVIDIA Operator on AKS; built observability stack handling 50M+ events/day

Senior Infrastructure Engineer | Financial Services Org | 2022-2024

Automated VM provisioning (97% time reduction); led Kubernetes adoption; designed disaster recovery strategies

DevOps Engineer | Government Agency | 2019-2022

Built CI/CD pipelines; managed multi-cloud infrastructure; implemented security scanning in deployment pipeline

CERTIFICATIONS & EDUCATION

PhD in Computer Science | Red Hat Certified Specialist (CKA, CKS) | Microsoft Azure Administrator | IBM Cloud Certified
