FOCUS AREAS

- Cloud-Native Architecture
- Kubernetes, OpenShift & GitOps (ArgoCD)
- AI / GenAI Platform Engineering
- DevSecOps Transformation
- Full-Stack Observability
- Security Engineering

CORE SKILLS

AI Ops

NVIDIA Operator · Amazon Bedrock · Microsoft AI Foundry · Autonomous Agents

Cloud

AWS (EKS, EC2, S3) · Azure (AKS, App Service, Entra ID)

GitOps & DevSecOps

ArgoCD · Jenkins · GitLab CI/CD · Ansible · Puppet · Docker · Harbor · Trivy

Kubernetes

Kubernetes · OpenShift · OpenStack · Nutanix (NKP)

Observability

Grafana · ELK · Dynatrace · Nagios · Prometheus · Centreon

Security

SIEM · EDR · DLP · Enterprise PKI · Vulnerability Mgmt

Systems

RHEL · IBM AIX · Windows Server · VMware · Nutanix AHV

CERTIFICATIONS

LPIC-3: Enterprise Professional
Linux Professional Institute

Certified DevOps Engineer Expert
Microsoft

Certified Azure Solutions Architect Expert
Microsoft

Cloud Private Infrastructure & Architecture
IBM

Solution Advisor — DevOps V2
IBM

Delivery Specialist — Cloud Management
Red Hat

Advanced Professional (DCV Design)
VMware

LANGUAGES

English Fluent (TOEFL)
Arabic Native
French Professional

Enterprise AI, Cloud & DevSecOps Architect with 10+ years designing and operating large-scale infrastructure platforms across banking, government, and enterprise environments. Drove **100% GitOps adoption** across all Kubernetes projects using **ArgoCD**, fully automating build, ship, and run for production workloads. Specialized in cloud-native architecture, Kubernetes platforms, AI/GenAI deployment, infrastructure automation, and cybersecurity — with a proven record delivering Azure, AWS, OpenShift, and VMware solutions.

PROFESSIONAL EXPERIENCE

AI & Infrastructure Expert — Saham Bank

Jan 2026 – Present
Casablanca, Morocco

Leading production AI/GenAI orchestration and DevSecOps pipeline architecture for enterprise banking workloads.

- Drove **100% GitOps adoption** across all Kubernetes projects with **ArgoCD**, fully automating build, ship, and run and making Git the single source of truth for cluster state.
- Engineered high-performance AI execution environments using the NVIDIA Operator on containerized infrastructure; orchestrated autonomous agents on Microsoft AI Foundry and Amazon Bedrock.
- Built secure, high-throughput CI/CD pipelines (Jenkins, GitLab) with SCA and registry isolation via Nexus, Harbor, Trivy, Dependency-Track, and Dependency-Check.
- Architected unified observability with Nagios, Grafana, ELK, and Dynatrace for proactive alerting and cluster stability.
- Engineered hybrid topologies across Azure (AKS, App Gateway, Entra ID) and AWS (EKS, S3, EC2); managed Nutanix, VMware, RHEL, and IBM AIX estates.

Stack — ArgoCD · GitOps · NVIDIA Operator · AKS/EKS · Jenkins · GitLab · Harbor · Trivy · Grafana · ELK · Dynatrace

System & Security Expert — Crédit Du Maroc Bank

Apr 2021 – Dec 2025
Casablanca, Morocco

Owned infrastructure performance and security posture across a multi-platform banking environment.

- Automated **80%** of deployment pipelines with Ansible, Docker, and Kubernetes — cutting delivery cycles by **50%** while embedding security gates natively.
- Pioneered defensive security programs (EDR, DLP, SIEM, enterprise PKI); ran vulnerability management and penetration testing, cutting threat parameters by **30%**.
- Optimized multi-platform environments (Windows, Linux, AIX) and virtualization (VMware, Nutanix); reduced downtime via proactive monitoring with Nagios, Centreon, and Prometheus.

THREAT SURFACE

IT Solution Expert — Power Maroc

Jun 2019 – Apr 2021
Casablanca / Rabat, Morocco

- Principal architect for Attijari, CIH, BCP, DGI, TGR, Royal Air Maroc, WafaSalaf, and JESA — delivering IBM AIX, Power Systems, mainframe, RHEL, and hybrid OpenShift/OpenStack implementations.
- Led large-scale migrations using Red Hat Satellite for centralized enterprise fleet configuration management.

IT Engineer — Ymagis Group

Feb 2018 – May 2019
Casablanca, Morocco

- Maintained high-availability integrity for **4,500** production servers across **3 continents** in a hybrid cloud footprint.
- Built modular provisioning frameworks with Puppet and Ansible plus custom Python/Bash automation.

Junior IT Consultant — Training Consulting Services

Mar 2016 – Jan 2018
Casablanca, Morocco

- Delivered virtualization designs (vSphere ESXi, vCenter, vSAN, SRM) for SNTL, Jacobs, SOLIBRA, NewRest, and Atlas Peintures.
- Managed enterprise workspace migrations to Exchange 2013, Office 365, and multi-tier Windows Server clusters.
