linkedin.com/in/mahfoud-outmani

Enterprise AI, Cloud, and DevSecOps Architect with 10+ years of experience designing and operating large-scale infrastructure platforms across banking, government, and enterprise environments. Specialized in cloud-native architectures, Kubernetes platforms, AI/GenAI deployment, infrastructure automation, and cybersecurity. Proven track record delivering Azure, AWS, OpenShift, and VMware solutions while leading DevSecOps transformation, observability initiatives, and production AI workloads. Passionate about building secure, scalable, and intelligent platforms that accelerate business innovation.

PROFESSIONAL EXPERIENCE

AI & Infrastructure Expert

JAN 2026 – PRESENT | CASABLANCA, MOROCCO

Saham Bank

- **AI & GenAI Orchestration:** Engineered high-performance execution environments for production artificial intelligence implementations using the NVIDIA Operator on containerized infrastructures. Orchestrated autonomous AI Agents and scalable enterprise workflow solutions leveraging Microsoft AI Foundry and Amazon Bedrock frameworks.
- **Advanced DevSecOps Pipelines:** Formulated secure, high-throughput end-to-end continuous integration and delivery (CI/CD) pipelines utilizing Jenkins and GitLab. Integrated automated software composition analysis (SCA) and secure registry isolation using Nexus, Harbor, Trivy, Dependency-Track (DTrack), and Dependency-Check (DCheck).
- **Full-Stack Observability & Telemetry:** Architected unified monitoring and log management fabrics using Nagios, the Grafana Stack, the ELK Stack, and Dynatrace to provide proactive threat alerts, deep performance profiling, and optimal cluster stability.
- **Cloud Platforms & Modern Infrastructure:** Engineered hybrid computing topologies across Azure (App Service, AKS, VM, Application Gateway, Entra ID / Azure AD) and AWS (EKS, S3, EC2). Managed large-scale hyperconverged infrastructure utilizing Nutanix, VMware, RHEL, IBM AIX, Windows Server, Kubernetes, OpenShift, and Nutanix Kubernetes Platform (NKP).

System & Security Expert

APR 2021 – DEC 2025 | CASABLANCA, MOROCCO

Crédit Du Maroc Bank

- **Infrastructure & Performance Tuning:** Optimized complex multi-platform environments (Windows, Linux, AIX) and robust virtualizations (VMware, Nutanix). Implemented proactive enterprise-grade monitoring utilizing Nagios, Centreon, and Prometheus, significantly elevating system visibility and reducing operational downtime.
- **Security Posture Hardening:** Pioneered key defensive security programs including EDR, DLP, SIEM, and enterprise PKI architectures. Orchestrated strategic vulnerability management and precision penetration testing campaigns, resulting in a 30% reduction in identified threat parameters.
- **DevSecOps & Automation:** Engineered secure automated deployment workflows, successfully automating 80% of pipelines using Ansible, Docker, and Kubernetes. Reduced software delivery cycles by 50% while natively embedding security gates into active lifecycles.

IT Solution Expert

JUN 2019 – APR 2021 | CASABLANCA / RABAT, MOROCCO

Power Maroc

- **Strategic Solution Architecture:** Functioned as Principal Architect and Advisory Consultant for premium corporate entities including Attijari, CIH, BCP, DGI, TGR, DMN, Royal Air Maroc, WafaSalaf, and JESA. Managed implementations on IBM AIX, Power Systems, IBM Storage Suites, Mainframe, RHEL, and hybrid OpenShift/OpenStack systems.
- **Hybrid Cloud & Automation:** Led large-scale cross-functional migrations using Red Hat Satellite for centralized enterprise fleet configuration management, improving continuous scalability and configuration velocity.

IT Engineer

FEB 2018 – MAY 2019 | CASABLANCA, MOROCCO

Ymagis Group

- **Global Fleet Administration:** Maintained high-availability system integrity for 4,500 production servers distributed across 3 continents in a high-density hybrid cloud environment.
- **Task Automation & Scripting:** Created modular provisioning frameworks using Puppet and Ansible alongside tailored Python and Bash automation utilities to reduce standard engineering friction points.

Training Consulting Services (TCS)

- **Virtualization Deployments:** Spearheaded foundational virtual compute designs (vSphere ESXi, vCenter, vSAN, Site Recovery Manager, and Fault-Tolerance) for major clients including SNTL, Jacobs, SOLIBRA, NewRest, and Atlas Peintures.
- **Enterprise Workspace Migrations:** Managed comprehensive modernizations to Microsoft Exchange 2013, Office 365, and multi-tier Windows Server clusters to unify corporate communication boundaries.

TECHNICAL EXPERTISE & CORE COMPETENCIES

AI Ops (NVIDIA Operator / Bedrock / AI Foundry)

Cloud Infrastructure (AWS / Azure)

DevOps & DevSecOps Pipelines

Kubernetes, OpenShift & NKP

Full-Stack Observability (ELK / Grafana / Dynatrace)

Ansible & Puppet Automation

Nutanix AHV & VMware vSphere

Security Engineering & PKI

SIEM / EDR / DLP Hardening

Linux/Unix Systems (RHEL, AIX, Ubuntu)

Database Administration (SQL/PostgreSQL)

EDUCATION

Doctor of Philosophy (PhD)

Computing & Information Technologies and Engineering
Madison International Institute & Business School | USA

Research Focus: Research focused on enterprise multi-cloud and hybrid-cloud architectures, including workload orchestration, disaster recovery, active-active deployments, cross-cloud failover strategies, data replication, and high-availability systems designed to achieve near-zero downtime and zero data loss.

Professional Master's Degree

System Engineering, Networking, and Security
Faculty of Sciences and Technologies (FST) | Settat, Morocco

University Degree in Technology (DUT)

Computer Science
ENSA | Berrechid, Morocco

LANGUAGES

English	Fluent (TOEFL Certified)
Arabic	Native Speaker
French	Professional Proficiency

PROFESSIONAL CERTIFICATIONS

- **LPIC-3:** Certified Linux Enterprise Professional (Mixed Environment)
- **Microsoft:** Certified DevOps Engineer Expert
- **Microsoft:** Certified Azure Solutions Architect Expert
- **IBM:** Cloud Private Infrastructure and Architecture
- **IBM:** Certified Solution Advisor - DevOps V2
- **Red Hat:** Delivery Specialist - Cloud Management
- **VMware:** Certified Advanced Professional (DCV Design)
